FULL STACK WEB DEVELOPER

Full Stack Web Developer Bootcamp graduate with a passion for problem solving, working with others, learning, and making products I'm proud of. My natural curiosity paired with a strong work ethic means I am always looking to improve my skills. Through past experiences leading countless outdoors expeditions, I have acquired the ability to work with and manage teams of varying sizes. I naturally like to take the reins to solve problems while also feeling content to step back and learn from others.

TECHNICAL SKILLS

Languages: HTML5, CSS3, Javascript
